## ABOUT US

KOMAN Advantage, LLC (KA), dba KA Electric, is an ANC 8(a), SBA-certified, small, disadvantaged business founded in 2019. We specialize in programmatic, operational, logistics, engineering support, and electrical services for the federal government and public opportunities, including expertise in lighting replacement, fire alarms, communications, electrical substations, emergency backup power generators, and EV charging stations.

As a wholly owned subsidiary of the Natives of Kodiak, Inc. (NOK), an Alaska Native Corporation (ANC), along with our sister subsidiaries, we serve as a comprehensive “one-stop-shop” for clients, offering diverse capabilities in construction and services.

Being an ANC 8(a) entity enables us to efficiently undertake projects through direct award, providing a cost-effective and streamlined alternative to competitive acquisition. Notably, direct awards to ANC 8(a) participants are generally not subject to protests, ensuring a reliable and swift project initiation process for contracting officers.

State of Arizona Registrar of Contractors, License # ROC352895
